1. Welcome, Logistics, Agenda Review

Matt reviewed the purpose of the meeting, noting that the short agenda was focused on moving the Legislative Agenda development process forward.

2. Review of Summaries of 11 Proposals for the 2025 Legislative Agenda

Matt referred the Committee to the issue summaries provided for the 11 issues previously approved for the '25 Agenda. He described the process that would continue in the coming weeks that would lead to the Committee's final approval of the "printed" Legislative Agenda at the December meeting.

A discussion followed, with suggestions made about possible rewording regarding the CIS and Fair Share for Vermont proposals. Matt noted that a number of proposals would be adjusting the wording of their proposal as advocacy in anticipation of the coming session continues.

The Committee then **consented** to the proposed wording for the issue summaries, with an understanding that additional edits would be made in coming weeks.

The meeting was adjourned by consensus at 2:45pm.
